White Labeled Digital VPN

Your Brand's Very Own VPN Service

Using Encroute's owned and dedicated VPN infrastructure, client dashboard and re-branded consumer-facing applications – your brand can own and operate its very own VPN service.

Benefits

- Recurring Revenue Stream
- Limited Startup Costs
- Value-added Service for Your Business
- Brand Extension

Case Study – European MSP

A regional MSP in southern Europe approached Encroute to make a custom VPN solution to add to their existing IT services to homes and small businesses.

Outcome

- 10,000 Monthly Subscriptions
- Improved Customer Satisfaction
- Increased Brand Recognition
